# THE KELBERMAN CENTER

AUTISM SERVICES ACROSS THE LIFESPAN  
AN AFFILIATE OF UPSTATE CARING PARTNERS

The Kelberman Center provides services & support for people affected by autism spectrum disorder throughout the lifespan, from diagnosis and preschool through to adult living. Beginning with a specialized preschool over 20 years ago, the Kelberman Center serves about 500 local families.

The Kelberman Center focuses on supporting individuals, families and the community through 6 core program areas:

- **Community Based Services**
- **Education**
- **Supporting Families**
- **Clinic & Counseling**
- **Social Groups & Recreation**
- **Long Term Support & Residential Options**

*1 in 68 children diagnosed as being on the spectrum*

*Autism is the fastest growing developmental disability in the U.S.*

With support from Gala proceeds, the Kelberman Center will be able to launch an early intervention screening initiative led by a clinical licensed psychologist through their Clinic. The program aims to help families with children up to 8 years of age catch early warning signs & then will assist them in accessing appropriate local supports.

**For more Information**
